During the quarter ended March 31, 2016, the Company incurred a net loss of \$78,812 compared to \$116,730 for the quarter ended March 31, 2015. Significant items making up the change in net loss for the three months ended March 31, 2016 as compared to the three months ended March 31, 2015 were as follows:

- Corporate administration decreased by \$29,734 as the Company has decreased the cost of office overhead.
- Regulatory and shareholder services decreased by \$22,379 as the Company was able to absorb some of the external costs internally.

- Staff costs decreased by \$10,796 as the Company decreased the personnel in the office.
- The decreases were offset by the increase in Exploration Costs for \$25,569 which was attributed to the costs of expenses incurred relating to mineral exploration. The Company impaired the exploration and evaluation assets on December 31, 2015 and all further expenditures on general maintenance will be expensed.

Operating Activities

The Company's cash used in operating activities was \$66,242 (2015: \$113,933). The decrease in the three months March 31, 2016 was due to the decreased expense in corporate administration \$16,541 (2015: \$46,275) as well as a decrease in regulatory and shareholder services to \$11,724 (2015: \$34,103).

Investing Activities

The Company's cash used in investing activities was \$nil (2015: \$22,585). The decrease in the three months March 31, 2016 was due to the Company's decision to impair the exploration and evaluation assets on December 31, 2015 all further expenditures on general maintenance would be categorized in operating activities.

Financing Activities

The Company's cash used in investing activities was \$nil (2015: \$51,142). The decrease in the three months March 31, 2016 was due to decreased activity in the Company.

Cash Resources and Going Concerns

At March 31, 2016, the Company had \$173,190 in cash and working capital of \$4,487. To continue maintain the property in the future, the Company will have to raise additional equity or form strategic partnerships; however there cannot be any certainty that additional financing can be raised or strategic partnerships can be found.

OPERATIONS

In 2015, the Company impaired exploration and evaluation assets for \$16,110,923 given that the fair market value of the project is valued at a nominal cost and the fact that the Company has not invested any significant expenditures on the property

EXPLORATION

Silver Coin Project

The Silver Coin Project is located in northern British Columbia, Canada, approximately 25 km northeast of the regional town of Stewart and 1,400 km north of Vancouver. Access is primarily by a good quality gravel road from Stewart, which has an airport and port facility. Stewart has a population of approximately 100 people in the winter months. The Silver Coin deposit was first discovered in the early 1900's and exploration work commenced in 1911 with the completion of a series of small exploration cross cuts. Jayden Resources (Canada) Inc. holds 80% interest in the Silver Coin Property, while Mountain Boy Minerals holds the remaining 20% interest.
