## Notes to the Condensed Consolidated Interim Financial statements

For the Six Months Ended June 30, 2012

---

### 1. Nature of and continuance of operations

Jayden Resources Inc. (the “Company”) was incorporated under the laws of the Province of British Columbia. On December 9, 2010, the Company’s common shares ceased trading on the TSX Venture Exchange and began trading on the Toronto Stock Exchange (“TSE”) under the symbol JDN. The Company, together with its subsidiaries (collectively referred to as the “Group”), is principally engaged in the business of acquiring, exploring and developing interests in mining projects. To date, the Group has not generated revenues from its principal activities and is considered to be in the exploration stage.

The Group is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Group’s continuing operations, and the recoverability of the amounts shown for mineral properties are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests.

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

The head office and principal address of the Company are located at Suite 1980, 1075 West Georgia Street, Vancouver, British Columbia, V6E 3C9. The registered and records office are located at Suite 1500, 1055 West Georgia Street, Vancouver, British Columbia, V6E 4N7.

### 2. Basis of Presentation

#### (a) Statement of compliance

These condensed consolidated interim financial statements are prepared in accordance with International Accounting Standards (“IAS”) 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”) on a basis consistent with the significant accounting policies disclosed in note 3 of the most recent annual consolidated financial statements as at and for the year ended December 31, 2011 as filed on SEDAR at [www.sedar.com](http://www.sedar.com). The condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and were approved and authorised for issue by the Board of Directors on August 14, 2012.

#### (b) Basis of measurement

The financial statements have been prepared under the historical cost basis except for the financial instruments classified as available-for-sale investments which are stated at fair value. The measurement bases are fully described in the accounting policies.

#### (c) Functional and presentation currency

The condensed consolidated interim financial statements are presented in Canadian Dollars (“CDN\$”), which is the functional currency of the Company.

### 2. Basis of presentation (continued)

#### (d) Critical accounting judgements and estimates

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations as of future events that are believed to be reasonable under the circumstances.

#### **Critical accounting estimates and assumptions**

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

##### *Depreciation*

The Group's management exercises its judgement in estimating the useful lives of the depreciable assets. The estimated useful lives reflect the management's estimate of the periods the Group intends to derive future economic benefits from the use of these assets. The Group depreciates its property, plant and equipment in accordance with the accounting policies. The carrying amount of the property, plant and equipment is disclosed in Note 9.

##### *Decommissioning and rehabilitation liabilities*

Decommissioning and rehabilitation costs have been estimated based on the Group's interpretation of current regulatory requirements and have been measured at the net present value of expected future cash expenditure upon reclamation and closure. Such costs are capitalized as exploration and evaluation assets. Because the fair value measurement requires the input of subjective assumptions, including reclamation and closure costs, changes in subjective input assumptions can materially affect the fair value estimate. Based on the assessment, the Group did not have any significant decommissioning and rehabilitation liabilities at the reporting dates.

#### **Critical judgements in applying the Group's accounting policies**

The following is the critical judgement, apart from those involving estimations that management have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

##### *Recoverability of exploration and evaluation assets*

When there are events or changes in the circumstances which indicate the carrying amount of the exploration and evaluation assets may not be recoverable, the Group will take into consideration of the recoverable amounts of the relevant cash generating unit ("CGU"). After taking into account the current economic environment, the management reviews the developing projects and exploration plans and confirms that there is no indicator for impairment on the exploration and evaluation assets of the Group at the reporting dates.

## Notes to the Condensed Consolidated Interim Financial statements

For the Six Months Ended June 30, 2012

---

### 2. Basis of presentation (continued)

#### *Impairment of available-for-sale investments*

For available-for-sale investments, a significant or prolonged decline in fair value below its cost is considered to be objective evidence of impairment. Judgement is required when determining whether a decline in fair value has been significant and/or prolonged. In making this judgement, the historical data on market volatility as well as the price of the specific investment are taken into account. The Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; whether the declines in fair value are significant or prolonged; and the financial health of and short-term business outlook for investee, including factors such as industry performance, operational and financing cash flow.

### 3. Changes in accounting policies

#### Future accounting changes

The following pronouncements from the IASB will become effective for financial reporting periods beginning on or after January 1, 2013 and have not yet been adopted by the Company. All of these new or revised standards permit early adoption with transitional arrangements depending upon the date of initial application.

- IFRS 9, *Financial Instruments* addresses the classification and measurement of financial assets.
- IFRS 10, *Consolidated Financial Statements* builds on existing principles and standards and identifies the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company.
- IFRS 11, *Joint Arrangements* establishes the principles for financial reporting by entities when they have an interest in arrangements that are jointly controlled.
- IFRS 12, *Disclosure of Interest in Other Entities* provides the disclosure requirements for interests held in other entities including joint arrangements, associates, special purpose entities and other off balance sheet entities.
- IFRS 13, *Fair Value Measurement* defines fair value, requires disclosure about fair value measurements and provides a framework for measuring fair value when it is required or permitted within the IFRS standards.
- IAS 19, *Employee Benefits* revises the existing standard to eliminate options to defer the recognition of gains and losses in defined benefit plans, requires remeasurements of a defined benefit plan's assets and liabilities to be presented in other comprehensive income and increases disclosure.
- IAS 27, *Separate Financial Statements* revised the existing standard which addresses the presentation of parent company financial statements that are not consolidated financial statements.
- IAS 28, *Investments in Associate and Joint Ventures* revised the existing standard and prescribes the accounting for investments and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

The IASB also issued *Presentation of Items of Other Comprehensive Income*, an amendment to IAS 1 *Financial Statement Presentation*. The amendment addresses the presentation of other comprehensive income and requires the grouping of items within other comprehensive income that might eventually be reclassified to the profit and loss section of the income statement. The change becomes effective for financial years after July 1, 2012 with earlier adoption permitted.

Information on new and amended IFRSs that are expected to have an impact on the Group's accounting policies is provided in note 2(b) of the most recent annual consolidated financial statements as at and for the year ended December 31, 2011.

### 3. Changes in accounting policies (continued)

The directors are in the process of assessing the impact of other new or revised IFRSs upon initial adoption. So far, the directors anticipate that the application of these IFRSs is unlikely to have a significant impact on the Group's results and financial positions.

### 4. Segmented information

The chief operating decision-maker has been identified as the Company's directors. The Group's principal activity is acquisition, exploration and development of mineral properties. The directors regard it as the single business segment and no segment information is presented. The Group did not derive any revenue from its principal activity during the periods.

The geographical locations of the non-current assets are based on the physical locations of these assets. All non-current assets of the Group are located in Canada (domicile) and no geographical segment information is presented.

### 5. Revenue and other revenue and net income

The Group did not derive any revenue from its principal activity during the periods. Other revenue and net income recognized during the periods is as follows:

In August 2010, the Company sold all mineral properties, real properties and intangible assets to its subsidiary, Jayden Canada for 15,189,801 common shares at a value of \$1.

#### (a) Silver Coin Property

In 2004, the Company entered into an option agreement with Mountain Boy Minerals Ltd. ("Mountain Boy") whereby the Company can acquire a 51% interest in Mountain Boy's 100% owned Silver Coin and 55% owned Dauntless projects as well as the 100% owned FR claims (collectively, the "Silver Coin Property") by spending \$1.75 million on exploration on the Silver Coin Property over a three year period (incurred). In 2006, the Company earned a 51% interest in the Silver Coin Property.

In July 2009, the Company entered into an agreement with Mountain Boy to increase its ownership in the Silver Coin Property to 70% and to purchase land and buildings in Stewart, BC in return for a payment of \$440,000 (paid) of which \$340,000 was allocated to the Silver Coin property and \$100,000 to land and buildings inclusive of goods and services tax. The Company can further increase its ownership to 80% after spending \$4,000,000 on exploration and development expenditures on any or all of the Silver Coin Property and Kansas Property by July 2014. The agreement gives the Company the exclusive right to manage the project through feasibility and also to negotiate on behalf of both parties the sale of the Silver Coin Property and Kansas Property.

In September 2011, pursuant to this agreement the Company increased its ownership to 80% after spending \$4,000,000 on exploration and development expenditures on all of the Silver Coin Property and Kansas Property.

### 10. Exploration and evaluation assets (continued...)

In September 2011, the Company entered into an asset purchase agreement with Nanika Resources Inc. (“Nanika”) to acquire Nanika’s 45% interest in mineral claims INDI 9-12 (collectively, the “INDI Claims”) which are adjacent to and form part of the Company’s Silver Coin Project. The Company paid \$250,000 and issued 350,000 common shares of the Company, at a value of \$49,000, to complete the agreement. Legal costs of \$4,145 were incurred in the transaction. Nanika retains a 2% net smelter returns royalty on the INDI Claims which at any time the Company can buy-back for \$1,000,000 per each 1%.

In March 2012, the Company entered into an option agreement to acquire 100% interest in two mineral claims by paying \$60,000 by December 31, 2012.

#### (b) Kansas Property

In 2004, the Company entered into an option agreement with Tenajon Resources Corp. (“Tenajon”) whereby the Company earned a 60% interest in Tenajon’s 100% owned Kansas Property by making a cash payment of \$50,000 (\$25,500 paid by the Company and \$24,500 paid by the joint venture partner Mountain Boy) on signing, issuing 77,000 common shares and spending \$1.0 million on exploration and development.

The Kansas Property adjoins the Silver Coin Property. The expenditures incurred on the Kansas Property are included in the Silver Coin Property expenditures and are eligible for the expenditures required for the Silver Coin Property. Pursuant to an option agreement entered into with Mountain Boy in 2004, Mountain Boy will be participating in the Kansas Property and earned a 49% interest in the Company’s 60% interest by making a cash payment of \$24,500 upon the signing of the agreement and issuing to the Company 98,000 shares of Mountain Boy. If the Company elects to put the Kansas Property or any adjoining property into production, Mountain Boy would be reduced to owning 40% of the Company’s interest.

In April 2008, the Company entered into a binding letter agreement whereby the Company purchased Tenajon’s wholly owned subsidiary, 0781639 B.C. Ltd. which holds an undivided 40% ownership in the Kansas Property and a 100% ownership interest in the Summit Lake property (which the Company disposed of in 2009). Since 0781639 B.C. Ltd.’s only asset was mineral properties, it was not considered a business and the transaction was accounted for as an asset acquisition.

On closing the agreement, the Company issued to Tenajon 13,500,000 common shares at a value of \$2,430,000 and incurred related costs totalling \$165,000. The Company also issued 187,500 units with a value of \$37,500 in relation to this acquisition.

The July 2009 agreement with Mountain Boy set the Company interest in the Kansas Property at 70% with Mountain Boy having the remaining 30%. The Company further increased its ownership to 80% after spending \$4,000,000 on exploration and development expenditures on the Silver Coin and Kansas properties.

## Notes to the Condensed Consolidated Interim Financial statements

For the Six Months Ended June 30, 2012

### 15. Share-based payments (continued...)

No options were exercised during the period ended June 30, 2012 and the year ended December 31, 2011. The weighted average remaining contractual life of the stock options outstanding at June 30, 2012 is 3.34 years (December 31, 2011: 3.35 years).

During the six months ended June 30, 2012 and 2011, the Company recognized \$487,100 and \$nil respectively of share-based payments for share options granted. The Company used the Black-Scholes option pricing model to estimate the fair value of the options at the grant date using the following assumptions:

	Six Months Ended June 30,	
	2012	2011
Date of grant	January 6, 2012	N/A
Share price at grant date	\$0.12	N/A
Risk free interest rate	1.26%	N/A
Expected life in years	5	N/A
Expected volatility	112%	N/A
Expected dividend per share	Nil	N/A
Fair value at grant date	\$0.12	N/A
Exercise price at grant date	\$0.15	N/A

Option pricing models require the input of highly subjective assumptions regarding the expected volatility. Changes in assumptions can materially affect the fair value estimate, and therefore, in the opinion of the management, the existing models do not necessarily provide a realistic measure of fair value of the Company's stock options and warrants at the date of the grant or thereafter.

Full share equivalent warrant activity for the respective years is as follows:

	Six Months ended June 30, 2012		Year ended December 31, 2011	
	Number	Weighted average exercise price \$	Number	Weighted average exercise price \$
Warrants outstanding, beginning of period	-	-	67,894,033	0.12
Issued	-	-	-	-
Subscriptions received	-	-	(67,894,033)	0.12
Warrants outstanding, end of period	-	-	-	0.12

At June 30, 2012 and December 31, 2011 there are no full share equivalent warrants outstanding and exercisable.
